Spring 2017

Home page

The screenshot shows the home page of a Learning Management System (LMS) for Kennesaw State University. The page has a dark header with navigation links and a user profile. Below the header is a course-specific banner for 'IT Capstone Project Section 01 Fall Semester 2016 CO'. A secondary navigation bar contains icons for Course Home, Content, Assignments, Groups, Discussions, and Other. On the right of this bar are links for Classlist and Grades. The main content area is divided into two columns. The left column features sections for Updates (showing 105 new emails), Announcements (currently empty), and Admin Tools. The right column features a Calendar section showing the current date and upcoming events (currently empty). Five yellow callout boxes with arrows provide additional context: one points to the 'Content' link, another to the 'Classlist' link, a third to the '105 New Emails' notification, a fourth to the 'Announcements' section, and a fifth to the 'Calendar' section.

My Home > IT Ca

All learning materials and work can be found in the Content section.

Announcements

There are no announcements to display.

Admin Tools

Important announcement will be displayed here. This is very important. Don't miss any item in this section.

Calendar

Saturday, August 13, 2016

Upcoming events

There are no events to display.

The calendar will remind you upcoming events and work dues.

This is sort of a mini dashboard which reminds you new emails or discussions.

Check your grades and classmates contacts here.

Content Section

All materials and student work can be found here.

2 Project Progression

This module contains materials for milestone reporting.

17

A module always starts with a guide.

This module (and some other modules) consist of sub-modules corresponding to the project progress.

Profile and Notifications

Set up your profile and use an image of yours so we can know each other better in the discussion.

The News tool is very important for critical announcements and updates. Please be sure to edit your notification settings to have announcements delivered to your preferred email address.

Instant Notifications
